Open Source Project License Request Application

1. What is the name of your Open Source Project?

OW2 Consortium manages several Open Source projects. The one who want to use JIRA are JOnAS, Easybeans, Exoplatform, XWiki, and even more. We'd like to use JIRA for several Open Source projects.

2. What is it that you are doing?

The OW2 Consortium is an open source community committed to making available to everyone the best and most reliable middleware technology. OW2 mission is to develop open source code middleware and to foster a vibrant community and business ecosystem. The OW2 Consortium was initiated on January 1, 2007 through the merger of ObjectWeb and Orientware, two leading open source middleware communities of renown industry players, innovative start-ups, prominent academic organizations and individuals from across the world.

3. What is the size of your development team?

about 500 developers and contributors.

4. Who is going to use your output?

It depends on the project:

- JOnAS is used in production for anyone wanting a Java EE certified platform

5. Have you gained support from other organisations? OW2 is supported by "strategic members" which are companies dedicating resources to Open Sources projects.

6. Are you aiming to release a commercial product in the future?

The OW2 Consortium doesn't release commercial products but our members might.

7. Is your Open Source project using a publicly accessible website?

Yes, the website of OW2 is <http://www.ow2.org> and the open source projects are still hosted on the ObjectWeb forge : <http://forge.objectweb.org>

7.a) If so, what is the URL?

The current CDE is <http://forge.objectweb.org>

8. Is our software to be run in a public environment?

Yes, it will be the public issue tracker for any OW2 projects that may want.

8.a) If so, what will be the intended URL?

A test installation has been setup here : <http://forge.ow2.org/jira>

Event - Google Summer of Code - GSoC - JIRA

9. Is your project using an approved Open Source License?

OW2 hosts many projects which may have different licenses, but all are approved OpenSources licenses

9.a) If so, which Open Source License(s) is your project currently under?

LGPL, GPL and BSD

9.b) What is the URL for your license agreement?

N/A

10. Is there an established code base?

Yes

10.a) If so, where can we view this?

The CDE hosts all the OW2 projects: <http://forge.objectweb.org>

10.b) Have you had at least one release of your product?

May OW2 projects have already been released (JOnAS, ...)

1. Which Atlassian product(s) are you interested in obtaining an Open Source License for?

JIRA But we're interested in Bamboo too (although we don't currently have an installed version)

12. What is the full name of the technical contact (the individual who will manage the license keys)?

13. What is the email address of the technical contact?

webmaster@ow2.org
